

CHBE UNDERGRAD NEWS

January was the start of a new year and semester at CHBE!

We kicked off 2016 with a **Welcome Back BBQ**, rang in the new semester with our **New Years Party**, had our **AGM & PreE-Week Rally**, and began preparations for **E-Week**!

Looking for something to do this summer? Scroll down to **page 3** to see how you can participate in **WEST: Water & Environment Student Talks!**

Social Media Accounts!

And don't forget about our **Snapchat** and **tumblr** accounts...

the Chemengineer

Like our **facebook** page *UBC CHBE Undergraduate Club* for important events and information.

While you're on the internet check out our **website** too! www.chbecouncil.com

Welcome Back BBQ!

On January 8th we had our Welcome Back BBQ. We sold delicious burgers and some awesome CHBE Swag. If you missed out on getting your CHBE Swag on, contact the Equity Officers.

Shirts: \$12

Sweater: \$35

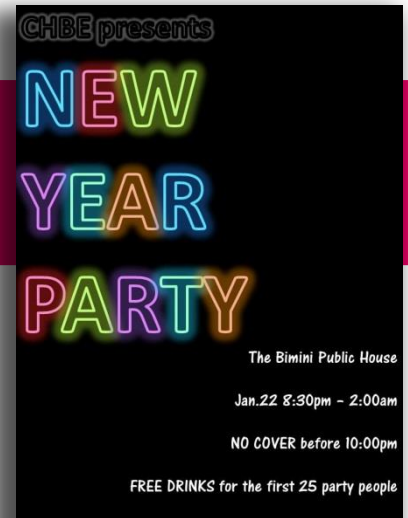

Sticker: \$2

Patch: coming soon!

New Year Party!

On January 22nd we continued the holiday partying and rang in the new semester at the Bimini's.

AGM & PreE-Week Rally!

On January 29th we had our AGM and PreE-Week Rally. We voted on our new constitution and enjoyed some free food and a CHBE Swag Sale!

E-WEEK IS HERE!!!!!!!!!!

Contact the Presidents, VPs, or Spirit Officers to join teams and participate for CHBE.

Sign up for volunteering at:
<http://ubcengineers.ca/eweek/>

Let's win some points for the CH-best engineering department!

The E-WEEK Schedule has been posted in the CHBE lounge. Check it for event dates, times, locations and points!

WEST is an interdisciplinary conference on all things related to water.
WEST 2016 where we will explore: **Where is water taking us?**

*What is the future
of the water industry?*

*How do we guarantee water solutions in the
midst of an ever-changing environment?*

*How can we network among each
other for effective, sustainable and
affordable results?*

*How do we develop research
to answer these questions?*

Learn more at the website: <http://west-conference.ubc.ca/>

Abstract Submission

Open Now Until March 29th, 2016

Graduate, undergraduate, and young professionals are encouraged to consider the large scale implications of their research and submit a poster, full presentation (15 minutes), or short presentation (6 minutes) under one of the following categories:

1. Water Treatment: wastewater, drinking water, storm water
2. Water and the Environment: hydrogeology, oceanography, agriculture
3. Water Policy Matters: regulations, sociology, environmental law, conservation
4. Water and Sustainability: energy, environmental impact, climate change, urban development
