TEAM UBERCOOLECULAR WINS GOLD AT THE BIOMOD COMPETITION!

The UBC BIOMOD team presented their research entitled “A dual-ligand targeted ‘Trojan Bull’ drug delivery system for glioblastoma” at the BIOMOD Jamboree held at Genentech Hall, UCSF on October 28-29, 2016. The project aim was to innovate a nanoscale drug delivery system for combating an extremely malignant brain cancer. The team successfully placed in the GOLD category for their project, and even won 2nd place in the audience choice category for their awesome presentation!

Congratulations to the entire team for doing an amazing job!
