Wednesday, November 30th

UBC CHEM-E-CAR IN SAN FRANCISCO!

The AIChE Annual Student Meeting in San Francisco is a massive event where over 1000 chemical engineering students from around the world get together to compete, learn, and network. The president of Dow Chemicals, Jim Fitterling opened the conference and provided some insights into the future of the chemical engineering profession. The 4-day conference at the Hilton Union Square was filled with a myriad of talks that ranged from 'nuclear energy of the future' to 'the importance of particle technology'.

There was also a large number of competitive events such as the student poster competition, the AIChE App Competition, and most importantly, the Chem-E-Car competition! The UBC Chem-E-Car team won first place in the poster competition, beating 40 teams from around the world in that category. They were the sole Canadian representatives this year. The team had a great time chatting with many other teams about their designs and exchanging ideas for building the next generation of Chem-E-Cars. Between events and competitions, the team also had the opportunity to explore downtown San Francisco and visit many iconic landmarks including Pier 39, the Golden Gate Bridge and Union Square. Overall, the conference was an exciting event and the team is already hard at work preparing a new car for Regionals 2017, which will take place in Oregon next April!

UPCOMING THIS MONTH...

UBC Engineering Open House!

Date: Saturday, November 26th

The UBC Engineering Open House is an opportunity for prospective high school students, college transfers, and the general public to come check out what UBC Engineering has to offer. There will be a departmental fair, followed by informative presentations, lab tours and other activities.

LUNCH AROUND THE WORLD!

Date: Wednesday, November 23rd 11-2pm

Location: ESC Atrium

Come out to the annual UBC Engineer's food event of the year: Lunch Around the World!

Sample culinary delicacies from various parts of the world, cooked by our very own engineering student teams as they compete for the trophy and of course, bragging rights!

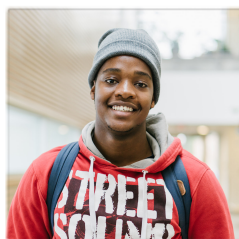

Food tickets will be sold at the event for \$2 each or 3 for \$5!
